REMINISCENCES OF OUR PIONEER DAYS

Gleanings From the Records Left By Men Who Laid the Foundation of Our County.

Here is a little news item quoted from the colums of the Times and Gazette of October 26th, just to show that San Mateo County property has has always been a good speculation, especally when the land happened to be in a location to make it coveted by the Spring Valley Water Company: "John Murray has sold his farm near Searsville, on the creek, to the Spring Valley Water Works for $15,000 gold coin. He gave $900 for it twenty years ago, and has made a good living from it since then. This is as good a speculation as most stock dabblers succeed in making."

For a time during the latter part of the year 1878, Redwood City and its vicinity seemed to be selected especially as a victim for destructive fires, several rather serious conflagations being noted. The most destrictive of these was the burning of the American House, which occurred on the night of Sunday, December 29th, 1878. The flames were discovered about 2 o'clock in the morning, when a considerable blaze was noticed by several persons, and a fire alarm given. This was responded to with remarkable promptness by the fire department, all of the companies being on the ground and at work within a few moments of the first cry and before the bell had stopped ringing. This was the first time the new municipal water works had been put to a severe test, and they proved adequate to the demand, furnishing an abundant pressure to carry water to the top of the hotel which was the highest building in thetown, notwithstanding that two streams were playing from the hydrants at the same time. This proved of immense advantage to the firemen, as it allowed the engine to be used from a cistern as an additional help, and it was largely due to this fact that the fire was kept from destroying several adjoining buildings. The fire started in the upper story, which was without an occupant on that night, and thus gained a considerable headway before it was discovered. Soon after the firemen got to work it was made apparent that it would be impossible to save the building and their efforts were devoted to the prevention of the spreading of the flames. The fire was a stubborn one and was given a hard fight, the battle lasting for nearly four hours, by the end of which time the entire building was a pile of ashes and debris. The inmates of the hotel managed to save nearly all of their belongings, and the furniture of the two lower stories was rescued with but little damage. That there was not loss of life or at least serious injury among the fire fighters, seems to have been a matter of good fortune, as a brick wall along one side of the building, which had bee built as a fire break toppled and fell almost among the dmen, doing considerable damage to the adjoining building. The loss occasioned by the fire was estimated at $30,000, upon which there was an insurance of about half that amount. At this time the American House was by far the largest and most prominent building in the town, and had been regarded as one of the leading hotels of the section, iand its loss was a calamity to Redwood City.

On the 18th of January, 1879, officers of Bay View Lodge, No. 109, I. O. O. F., were installed as follows: David Collie, noble grand; J. Snow, vice grand; John Schelley, secretary; P. P. Chamberlain, treasurer; John Burr, warden; George C. Ross, conductor; B. F. Cooper, inside guard; J. W. Glennan, outside guard; William Holder and Henry Horton, supporters to noble grand; George W. Green and William Headley, supporters to vice grand.

On March 1st. 1879, there was another change in the editorial control of the Times and Gazette, H. N. Nutting, who had been its editor and manager for three years, retiring. The management and editorial director of the paper then passed to T. M. Cook.

Hayes Can Accomplish Nothing

Attorney Kincaid, secretary of the Board of Trade, is in receipt of a letter from Congressman Hayes, written January 31st, in which Mr. Hayes says that he is unable to improve the mail facilities between Woodside and Pescadero. The Fourth Assistant Postmaster-General, who has charge of such matters, seems to be convinced that the people residing in that part of the county are given such service as the population would warrant. He closes his letter expressing regrets that he can accomplish nothing.

Jacob Riis, the great author, lecturer and reformer and friend of Theodore Roosevelt's, will speak at the Alhambra in this city on March 21st under the auspices of the Woman's Club.

Men's suits. We will show you some of the best yet seen in hats, clothes, neckwear and shirts. Marcus department store, opposite postoffice.

THE CARTWRIGHTS WILL ENTERTAIN IN REDWOOD.

"Any one who would not be satisfied with a program such as they gave here could not be satisfied with anything. We will look forward to their coming again."

This is what A. J. Hester, of Butte, Montana, says about the concert given by the Cartwright Concert Company. The company is made up of Mr. and Mrs. Cartwright, their little daughter, and Miss Porterfield, the pianist. Mr Cartwright not only plays the violin splendidly but he sings baritone admirably. Mrs. Cartwright, a graduate of Columbia College of Expression, Chicago, is an excellent reader, but has a close second in the person of her little daughter who is simply great in her boy impersonations. These people, with a high grade entertainment, will give a concert in the Alhambra Friday evening, February 17th. Those who like something really good will plan to attend. Get up a crowd, reserve seats together and enjoy one of the best evenings for a long time.

Killed by the Train.

Ignacio Galindo, a native of Redwood City, aged 31 years, was killed by the 8 o'clock north-bound train at the crossing near the chemical works Sunday morning. An inquest was held by Coroner Plymire Tuesday at which the train engineer testified that Galindo was walking between the two tracks and although the whistle was blown repeatedly he seemed to pay no attention to it and stepped in front of the engine. He was struck and hurled to one side and when picked up by the train crew his skull was found to be fractured. His death must have been instantaneous. The body was turned over to Mr. Crowe and was buried in Union Cemetery Tuesday. Galindo was a harmless young man and was not thought to have a very strong mind.

Don't Shoot Robins.

The robin is defined as a song bird and as such is protected by law at all times. Last Sunday John Papagiles and Antone LaHanica, tannery employes, went forth in search of game and succeeded in getting six robins. They were arrested by the game warden and Papagiles who acknowledged shooting the birds was fined $25 by Justice Lampkin.

Charley Was a Genial Host.

C. G. Landscheit entertained the members of the Choral Club Friday evening and despite the inclement weather twenty-six were present. Mrs. N. C. Cummings won first prize in the song guessing contest and J. E. Cowgill drew the booby prize. Mr. Landscheit has a splendid little home and in his genial hearty way set every one of the bashful men at ease.

The members of the Red Cross Chapter met at the home of the president, Mrs. Robert Brown, on Friday afternoon and were pleasantly entertained. The secretary, Mrs. J. N. Winter made a report, showing that Christmas seals to the amount of $70 had been sold. At the close of the business meeting a cozy hour's chat was enjoyed about the fire-place and delicious refreshments closed the afternoon.

March 17th, in the Alhambra theater, the Bachelor Club will present something in the play line that promises to be startling as well as interesting. Don't make any other engagements for that date. A dance follows the play so that no one need feel that they cannot have a full evening's enjoyment.

Judge Waste of Oakland, on Monday appointed Roy W. Cloud appraiser of the estate of the late Andrew Graham.

STORM SEWER PLAN MAY BE AMENDED

Council Makes Settlement With C. W. Melvin and Secures Surrender of Contract

At the meeting of the City Council Monday evening Chairman Merrill took occasion to administer a rather heated rebuke to what he termed the disappointment and disgruntled carper who makes the opportunity for faultfinding with the conduct of business. The opportunity came with a reported statement that the inspector of the street work in Dingee Park had been employed after the contractors had ceased work. He called attention to the fact that the inspector had only been paid for a portion of the month of December and stated that no inspector had been at work since the contractors had left the job. After the statement of the chairman the council approved the minutes of the last meeting and got down to business.

The United Gas and Electric Co. was given permission to use a few of the city's poles for the extension of its electric lighting system to private consumers, the work to be done under the direction of City Engineer Werder. The same company was given permission to open the County Road in the vicinity of the Catholic church for the purpose of extending its gas mains to private houses.

City Clerk Plump reported that a map of the pole system of the Telephone Company had been filed with him in accordance with the request of the council.

Dr. J. L. Ross, the City Health Officer reported that the health department was now fully equipped for business. Acting under the authority given by the Council he had pro-

BUSINESS DISPOSED OF BY SUPERVISORS

County Board Gives Consent to Proposed Incorporation of Town of Daly City

The board of supervisors held an important session last Monday.

The report of the coroner and public administrator was read and ordered filed.

The communication of the Vista Grande fire department was ordered filed.

Hannah Willman was granted $18 monthly for the support of her three half-orphan children.

Mrs. Mary Gormley of the Mission tract and R. C. Rafford of Redwood City, aged persons, were each allowed $8 per month for their support on motion of Casey, seconded by Blackburn.

Wm. Ford petitioned for and was granted permission, on motion of Casey, seconded by Blackburn, to transfer his liquor license back to San Bruno, he having recently been permitted to move to Tanforan.

A communication was received from the Sacramento Development Association asking the board to appoint delegates to attend a convention to be held at Sacramento shortly to confer regarding the expediture of the $18,000,000 bond issue voted at the late election for road work. Delegates appointed are as follows. By Casey, Geo. R. Sneath; by Brown W. H. Toepke; by McEvoy, Chas N. Felton; by Francis, C. M. Johnson; by Blackburn, T. E. Roe.

H. C. Finkler called the board's attention to the unsafe condition of of a bridge on the Whipple road and asked that action be taken at once to repair it.

On motion of Casey, seconded by Blackburn, Supervisor Brown was authorized to take immediate steps to place the bridge in a safe condition.

Casey was granted permission to repair three bridges in the First township.

The following named liquor dealers whose applications had been previously reported were granted licenses.

First township—John T. Collins, Colma; Bernard Ward, San Bruno.

Second township—P. L. Archibald, Belmont; H. S. Caldwell, Belmont.

Fifth township—R. Cory, Pescadero.

The applications of Geo. Pappis and Geo. M. Collopy of the First township were laid over for one month on motion of Casey, seconded by Blackburn.

The following liquor dealers gave notice of intention to apply for licenses a month hence:

First township—Cali Bros., Crocker Tract; Geo. Nick, Hillcrest; D. F. Rossi, Colma; Jas Cawley, Salada Beach; Chas Reske, Colma; E. C. Nilson, Colma; Garry Welch, Visitacion; Frank Smack, Vista Grande; Henry Bauer, Colma; D. McSweeney, South San Francisco.

Third township—Wm. Warren, Menlo Park.

Fifth township—E. J. Montevaldo, San Gregorio; J. C. Amaral, Pescadero.

The applications of Peter Gardina and J. A. Gillan were rejected on motion of Casey, seconded by Blackburn.

The application of Charles Meyer of Menlo Park was laid over on account of pending investigation.

At the request of Roy W. Cloud, superintendent of schools, a resolution was adopted forming a new school district at San Pedro to be known as the Tobin district.

Mr Cloud called the boards attention to a descrepancy of $3762 that had existed for many years between his books and those of the auditor and treasurer in the accounts of the San Mateo Union high school and suggested that the board adopt the advice of the Grand Jury expert and force a balance.

He was advised to secure the sanction of the highschool trustees and prepare a resolution for adoption at the next meeting.

The clerk was directed to prepare a recommendation for Donald MacKenzie, who superintended the construction of the courthouse. He asked the board to give him one.

Chairman McEvoy presented a lease and contract from Peter Faber, granting the county permission to cross his lands with a pipe line for a period of ten years for the purpose of carrying water for road sprinkling in the Third district. The lease and contract were accepted and ordered recorded.

The report of the auditor and treasurer fixing the rate of interest to be paid by banks for county money at 2 per cent per annum was read.

The chairman said he had failed to sign the report as he thought the rate should be three per cent. Auditor Underhill presented several communications from clerks of the various counties which showed that the rate of interest fixed by other counties was 2 per cent. No further action was taken.

McEvoy and Brown were given permission to repair certain culverts in their districts.

The chairman reported in reference to the courthouse grounds. He recommended that the excavation be done by days work. His report was accepted.

Geo. C. Ross appeared before the board as a committee of one appointed by the local bar to ascertain if the installation of book cases in the law library could be hastened. Mr. Ross suggested that if the contractor would not put them in soon that ordinary shelving could be provided and thus save time. The matter was referred to the district attorney with power to terminate the contractor's agreement and to act in accordance with the suggestion of Mr. Ross.

H. H. McCloskey of Salada Beach complained that the telephone company was using some eleven miles of the county road from Colma to Rockaway for a private line and had refused the residents of his section a telephone service.

Francis stated that he had conferred with the company on the subject some time ago and had been informed by its managers that it was the intention to extend a public line down the coast as far as Montara.

On motion of Francis seconded by Casey, the matter was referred to the district attorney with power to cause the removal of the line from the county road if necessary.

The incorporation of Daly City was taken up. E. D. Knight and H. E. Styles, attorneys for the petitioners addressed the board at great length. R. S. Thornton objected to any act that would obliterate Jefferson school district which would become a part of the incorporation. When assured that the school district would not lose its identity he withdrew his objections. A resolution was adopted fixing March 18th as the day on which the people of the proposed city will vote on incorporation.

After considerable discussion a motion was carried appointing a purchasing agent to act as a stenographer or tfhe district attorney. McEvoy voted no on the motion. He contended that there was no use for such an official and that the district attorney should secure assistance as the law provided.

It was ordered that a list of the stationery and other supplies needed in each office be completed and that bids be advertised for.

Recorder Heiner stated that recently two suits had been started in the county to acquire title under the McEnerney act, which act requires that he shall have in his office accurate maps of the property affected. He had no such maps and was at a loss as to how to proceed in the matter.

The district attorney thought the matter might be satisfactorily arranged with the attorneys in the suits without cost to the county. He promised to confer with them and was so authorized.

John O'Farrell was appointed to superintend the excavating of the courthouse grounds at a salary of $4 per day.

Brown thought that the county physician should be a resident of San Mateo where he would be centrally located and within easy reach of the county hospital. He therefore moved that the office of county physician be declared vacant.

Francis argued that Dr. Brooke was an competent physician and having attended faithfully to his duties it was wrong to dismiss him at this time.

A vote was taken which resulted in a tie, Blackburn declining to vote, and the motion was declared lost.

The district attorney reported that the claims of the auditor and treasurer for going to San Francisco to count the county's funds were legal. He also reported that the claim of R. E. Bowie for automobile hier should be charged to the City of San Francisco.

Claim of Suhr & Wieboldt for $50 for burial of Harry Fitzgerald, a Spanish war veteran, was not warranted as the law authorizing such expenditures applied only to indigent soldiers of the Civil War.

Claim of H. L. Good for expense of $5 in making an arrest was not legal.

BUSINESS TRANSACTED BY THE CITY COUNCIL

[Continued from 2d page.]

cured a full supply of books and stationery for the transaction of the business of the board and the keeping of the records of the health office. The action of Dr. Ross was approved.

But a few moments discussion with C. W. Melvin and the representatives of the Doak Steel Company sufficed to secure an agreement for the cancellation of the contract for the storm sewer improvements on the County Road. Mr. Melvin presented an itemized statement of his expenditures on the work to this time, which amounted to a total of $1999, and which proved acceptable to the council. At the same time Mr. Fletcher, the representative of the Doak Steel Co. informed the council that it was the desire of his firm to deal liberally with the city and that if it was deemed necessary to change the work they were ready to release Mr. Melvin from his contract with them. With these understandings the clerk was directed to draw a warrant in favor of Mr. Melvin for the amount which it was agreed was due him upon the cancellation of the contract.

City Attorney Mansfield presented a new draft of the ordinance to regulate the maintenance of sanitariums and hospitals in the city. The new draft which will be substituted for the ordinance introduced at the last meeting provides a method of application for permits for the establishment and maintenance of sanitariums and hospitals and empowers the council to revoke such permits at any time when the public interest may demand such action.

Trustee Sampson, chairman of the committee on public health presented a new ordinance to regulate plumbing and to provide for the office of plumbing inspector. The ordinance, which is rather lengthy, provides for a strict regulation of the plumbing of all classes of buildings in accordance with the most modern methods, giving complete details for the installation of the work. It also requires that all master plumbers shall be licensed, and prohibits the installation of this class of work without a license. The plumbing inspector provided is to be paid by fees from the work inspected.

A new contract with the Redwood City Water Company, to take the place of the one which has expired was presented but as it was deemed that the contract should be considered by a full board, action was deferred until the next meeting.

Acting upon several complaints made of defective sidewalks, the street superintendent was directed to submit at the next meeting a list of sidewalks in need of repair or reconstruction.

An intimation as to the designs of the council with reference to the new City Hall site was given when Chairman Merrill suggested to Chief Winter that he look over the old kindergarten building with a view to its remodeling for use as a central fire station. Chief Winter in reply indicated that he did not fully approved the plan to remove the headquarters of the department to that location, holding that the present quarters were more central. With the views of the Chief the council showed a disposition to dissent, holding that the site selected on the extension of Phelps street, would , when that street is opened and completed enable the department to reach all parts of the city to a better advantage than the preslocation. It was also made evident that the present building was admitted that the present buildadmitted to have outlived its time of usefulness and was far from safe.

City Marshal Coleman reported that he had lately received a number of complaints from people residing upon the County road against the maintenance of an amusement place in that vicinity which was the cause of disturbing noises and was frequently continued until the very late hours of the night. As a remedy an ordinance will be prepared regulating the trouble complained of and requiring the proprietors of such places to pay a license and to close at a reasonable hour.

Some little discussion was given the matter of the assessment of city property for the coming fiscal year. For a number of years this work has been done by County Assessor Hayward, but under the new state tax laws, Mr. Hayward is of the opinion that the assessment should be made independent of his office and the valuations fixed without regard to the county assessment roll. This is the general view of the trustees and it is probable that at the next meeting steps will be taken to take over the work and provide for an assessor for the city.

The often discussed matter of the permanent improvement of the county road was again brought up by Chairman Merrill, but on the suggestion of Trustee Hynding that it might be possible to secure the expenditure of a portion of the State Highway fund on this thoroughfare the matter again went over.

Uncle Sam evidently has not had a very prosperous year and will have to economize some in order to catch up. To all those who find it necessary to economize, we suggest that they patronize this laundry. If we cannot please you with the method of our laundering, there's no laundry that can please you. NO REASON FOR IT
When Redwood City Citizens Show the Certain Way Out.
There can be no just reason why any reader of this will continue to suffer the tortures of an aching back, the annoyance of urinary disorders, the dangers of kidney ills when relief is so near at hand and the most positive proof given that they can be cured.
Read what a Redwood City citizen says;
Fred Hassler, 101 Stambaugh St., says: "My kidneys were badly disordered and the kidney secretions were unnatural. Knowing that difficulties of this kind often resulted seriously if allowed to go unchecked, I was anxious to get relief. Seeing Doan's Kidney Pills highly recommended, I got a box at P. A. Ryan's Drug Store, and their use completely removed the symptoms of my trouble. In July, 1907, I publicly testified in favor of Doan's Kidney Pills and at this time I gladly confirm that statement. During the past two years, I have been free from kidney complaint. This fact justifies my speaking more highly than ever of Daan's Kidney Pills."
For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.
Remember the name—Doan's—and take no other.

A One-Piece Roof
The same space covered with a single roll of Ruberoid roofing would require at least 600 shingles.
600 separate pieces of wood, each inclined to warp a different way.
1,800 exposed edges—1,800 chances for leaks.
Yet a roof of Ruberoid, whether it requires one roll or 100, is practically a one-piece roof.
For with each roll comes an exclusive product, Ruberine cement, with which the seams and edges are cemented together—sealed against warping—sealed against the weather.
A Ruberoid roof is heat proof, cold proof, rain proof. It resists acids, gases, and fumes.
Ruberoid Is Fire-Resisting
And it is so nearly fireproof that you can throw burning coals on it without danger of setting fire either to the Ruberoid or to the timbers underneath.
Ruberoid roofing is so simple to apply that you can lay it yourself; or you can have it laid without using skilled labor.
For the service it gives it is the cheapest of all roofings—whether used on home, barn, outbuilding, factory, warehouse, store.
The first large Ruberoid roof ever laid—a foundry roof put on in 1892—is still weather tight, still flexible, after seventeen solid years of service.
But do not confuse Ruberoid with other ready roofings. Ruberoid was the first ready roofing by several years.
Beware These Substitutes
Today there are 300 substitutes. They have names which sound like Ruberoid. Before they are laid, most of these substitutes look like Ruberoid.
But there the resemblance ends. For in Ruberoid, and Ruberoid alone, is used the exclusive processed Ruberoid gum. This wonderful flexible gum is the vital element which no other maker can copy.
Another Ruberoid feature is that it comes in colors—attractive Red, Brown, Green—suitable for the finest home. These colors do not wear off or fade—they are a part of the roofing itself.
Before you decide on any roofing, for any purpose, learn about all kinds of roofings.
Simply ask for the free book which tells the results of twenty years of tests with shingles, iron, tin, tar, and ready roofings. It is a gold mine of roofing knowledge, and will be sent free to all who address us.
RUBEROID (REGISTERED IN U. S. PATENT OFFICE)
Be sure to look for this registered trademark which is stamped every four feet on the under side of all genuine Ruberoid. This is your protection against substitutes which many dealers brazenly sell as Ruberoid. Ruberoid is sold exclusively by us. We will tell you more about Ruberoid when you send for the free book.
